<b>Size</b>	24 boxes, 20 folders
<b>Contents</b>	Specifications correspondence, tenderbooks and related business records, and architectural plans and drawings. Includes some plans of other architects including Atkinson and McLay, Addison and MacDonald, and E.P. Trewern.
<b>Date range</b>	1898 to 1943
<b>Biography</b>	William Hodgen was born in Toowoomba in 1866. After work as a cadet in the Colonial Architect's Office, he resigned in 1891 to travel to London where he obtained employment with William Flockhart. He returned to Queensland and began practice as an architect in Toowoomba in 1897. He undertook work throughout southern and western Queensland. He practised with his sons Neil Nelson Hodgen and Owen Frederick Hodgen from 1935. He died in Toowoomba on 29 July 1943.
<b>Notes</b>	Unrestricted access

### *Series 116/Aa: Specifications [War Service homes]*

This series consists of 107 standard specifications set out by the War Services Homes Commission, Queensland Branch. Most of them have a blue print plan attached to the specification - drawn by the War Services Homes Commission, Qld Branch.

Some also include an extra drawing of details for gates, fences, joinery etc. Some also include correspondence about the job. Most of the specifications have standard brown covers with details of job, owner, location etc.

The series was originally numbered 1 – 120 in blue or red pencil. However some are duplicated (ie. same copy of specification for contractor etc.) and the duplicates have been discarded. The last 15 specifications were not originally numbered.

The series also includes a list of homes in the course of erection and an index to War Service home plans and specifications.

See index below for item details (\* indicates the discarded duplicates).

### *Series 116/B: Letter Books*

The letter books cover the period 27 Mar 1900 to 16 May 1938. Each volume is self-indexed and the correspondence covers all aspects of the architectural firm. In many instances the letter will have two numbers at the end, the top number refers to a page number upon which a previous letter on this subject will be found and the lower number refers to a page upon which the following communication will be seen.

The letters include those to clients, to tenderers, to commercial firms and to builders.

See index below for item details.
