## University of Queensland Site Plans Collection

<b>Size</b>	83 drawings and plans
<b>Content</b>	Site plans of the University of Queensland, St. Lucia. Includes plans by Hennessy & Hennessy Co., F.W. Robinson, R.W. Hawken, J.J.C. Bradfield and A. B. & R.M. Wilson. The plans are arranged in 13 folders. Some are classified by the name of architects and some by the theme of the plans.
<b>Date range</b>	[1926 to 1972]. Most plans in this collection date from the 1930s to 1950s.
<b>Biography</b>	The St Lucia site for the University of Queensland was purchased in 1927 with funds provided by Dr James O'Neill Mayne and his sister, Miss Mary Emelia Mayne. The title to the land was presented to the Chancellor in 1930, and in 1935 the Queensland Premier, the Hon. W. Forgan Smith, announced that the State Government had decided to build a new university on the land at St Lucia. A joint committee of government and university representatives was appointed to investigate the site, draw up plans and report to the government. Its members were Dr Melbourne (University representative and chairman), Dr Bradfield (government representative and deputy chairman), J.D. Story (Public Service Commissioner), A.B. Leven (Chief Architect, Department of Public Works) and T.L.Jones (Chairman of the Brisbane and South Coast Hospitals Board). Six plans were presented, by Professor Hawken, Mr Leven, Dr Bradfield and Professor Robinson. All the plans used a topography of the site in a similar manner to A.B. Wilson's original plans of 1926. In 1936 the government appointed the architectural firm of Hennessy Hennessy & Co.
